Infant Sleep Policy

In order to reduce the risk of Sudden Infant Death Syndrome (SIDS), infants under 12 months of ages will be placed on their backs on a firm tight fitting mattress for sleep in a crib. Please provide a physician's note in order for your child to sleep in another position.

Infants are prohibited from sleeping on any other surfaces, infant seats or swings.

All pillows, quilts, comforters, stuffed toys or other soft items shall be removed from the crib while the infant is sleeping.

If a blanket is used, the infant should be placed at the foot of the crib with a thin blanket tucked around the crib mattress, reaching only as far as the infant's chest.

The infant's head shall remain uncovered during sleep.

Tummy time shall be provided for awake, non-mobile children.

Children will be swaddled upon the parents' request until about 4 months of age. Then infants will be weaned from swaddling.

I have read and understand this policy.
